

Instrument Builder

- Developed by single SNS employee for own project?
 - Partial implementation but looks OK
 - C++ and PVM/MPI for parallelization
 - Website <http://neutrons.ornl.gov/instruments/SNS/EQ-SANS/software/ib/doc/>
 - Developed by JK Zhao (ORNL)
 - Windows & Linux
 - Unkown license but source code provided
-
- My 0.02\$: Sleeping project?
