

Including user contribs

- Well-developed community support
 - 30-40% of existing and new additions are from users
 - No direct refereeing of the code, but these requirements:
 - At least one test-instrument
 - Meaningful documentation headers (in-code docs)
 - Contributions go in dedicated contrib/ section of library
- Natural life-cycle of contrib's
 - Bug-fixes are applied both by contributor and developers
 - If contributor becomes unavailable either:
 - Many users of comp: Promote to official components, e.g. in optics/
 - Few/no users of comp: Move to obsolete/ until next major release
