Knowing more / continuing at home

- All development teams are very dedicated and want to help, pass your problems on!

- McStas+VITESS teams often do schools/workshops together where you solve problems with one, the other or both codes. Exercises and code from a workshop in Ven 2010 is available here:
  - http://ven2010.essworkshop.org/storage/

- We will provide you with a take-home Linux Live DVD (ILL/NMI3) where several of the european codes are preinstalled
